

Easter Means "Dress Up"

And the easiest way to obey that impulse is to buy everything you need here.

You'll benefit in two big ways by doing so.

First our Spring stocks are large—and a wide variety makes buying simple.

Second, you will feel better about new clothes if you don't have to worry about the cost.

—and our prices have a reputation for being reasonable.

Clothcraft Clothes are here in all their Spring newness. At \$10 to \$25 the styles, materials and workmanship can't be paralleled.

Don't delay—Spring is here to stay.

Broadhead

IN our last letter we forgot to mention that the Knoxville Boosters were at Broadhead, and while their stay here was rather short, the southern city was well represented while here. About five hundred people were about the depot to receive them, and their stay seemed to be a very pleasant one. A number of familiar faces were among the boosters—Born to the home of Mr. and Mrs. D. B. Albright, last Wednesday, a fine baby girl.—Dr. and Mrs. W. F. Carter, and Mrs. John E. Evans, and little daughter, Geneva, were in Stanford, Thursday, of last week Mrs. Evans' little daughter had a severe attack of pneumonia last winter from the effects of which she has not fully recovered, leaving her lungs in a serious condition, and the Stanford doctors were consulted about her condition. Dr. Carter is attending her.—Mrs. L. B. Hilton and little son, Master James Butler, of Stanford, were recent visitors of her parents, Mr. and Mrs. J. R. Cass, here.—Mrs. Sarah Purcell returned to her home near here after spending several days the guest of Mrs. J. R. Cass.—Mrs. Vester Francisco, who has been sick so long, is in a very sick condition, and is not expected to live but a few days.—U. B. Cass and Claud Owens are in Cincinnati, where they have good positions.—Mrs. George Tandy, of Milton, Ky., is the guest of her daughter, Mrs. B. T. Young. She will likely return to her home tomorrow.—Grand daddy Cass went to Louisville last Saturday morning, returning that afternoon with Logan Bryant in a new Ford car. The car, however, does not belong to daddy, but he has the Ford fever alright—Regular services were held at the Christian church, Saturday and Sunday, by the pastor, the Rev. R. B. Baker, of London.—H. L. Tharp, L. & N. Agent at

Junction City, was here between trains Sunday, with his daughter, Mrs. R. E. Albright—Mr. and Mrs. B. T. Young, and their three boys, have been sick during the week. We are glad to report that some of the number are much better, and hope that all will soon be out again.—Chint Lear was near London this week to see a doctor about his condition. We have not learned what the mountain doctor thinks of Mr. Lear's condition. Mrs. W. E. Sproule has been quite ill for the past several days with rheumatism.—Little Vivian Albright, daughter of Mr. and Mrs. A. E. Albright, came near losing her life last Sunday when she fell upon the rail road track a few feet in front of train No. 23, and had it not been for the undaunted courage of Prof. J. L. Pilkenton the child would have been killed without doubt. The engine man applied the emergency brake but was unable to stop the train until it had passed the point where she fell some fifty or more feet. The child in attempting to cross the track, when the train was probably within 150 feet of her, and her brother-in-law, W. G. Yaden, realizing the great risk attempted to assist her across, and just as he went to take hold of her she fell, and as he was running, failed to catch her. Prof. Pilkenton made a leap, caught the child and saved her life at a great risk of losing his own. We feel that the Professor is justly entitled to a Carnegie medal.—Mr. and Mrs. A. M. Hiatt were the guests of her parents, Mr. and Mrs. R. L. Smith, in the Hiatt section, Tuesday.—Miss Myrtle Murray, of Crab Orchard, has been visiting relatives here during the week.—Mrs. W. A. Tyree is quite sick this week.—A man by the name of Stevenson attempted to brake into the store of J. T. Lawrence, Tuesday night, and when he found that the task was a difficult one, he went up an outside stair way, and with a pair of steel knucks knocked out a panel of

the door leading into the bedroom of Mr. and Mrs. Lawrence. He of course did not expect any one to be in the building, and when the alarm was given, the man was unable to get away until the officers nabbed him and landed him in jail. His examining trial was set for Wednesday but on account of the fellow having no attorney the case was continued until this morning. The result of the court's finding will be reported later. County Attorney Gentry was here to look after the Commonwealth's side of the case. The same night Willie Harp, who was on a boarding car here, was reported to have been relieved of \$23.00 in cash while he was safe in the arms of Morpheus. It was also reported that the Rev. J. J. Belcher's horse was taken, but later found near Ottawa.

RESOLUTIONS.

The Sunday School of the Mt. Vernon Christian Church, Mt. Vernon, Kentucky, in regular session on Sunday, April 16, 1916, unanimously adopted the following resolutions:

First, That our school has sustained a great loss, by the removal of our Superintendent, Mr. C. C. Davis, to Winchester, Kentucky, to be followed in a few weeks by his estimable wife and lovable daughters.

Second, That Mr. Davis was efficient and progressive as a Superintendent, untiring in his efforts, unselfish in his service, self-sacrificing in his devotion, generous towards every appeal and loyal to every co-laborer.

Third, That a copy of these resolutions be sent to the Weekly Bulletin for publication, a copy to the Christian Church at Winchester, Kentucky, and a copy be published in the Mt. Vernon Signal.

"HOW TO BOOM A TOWN"

Not long since the SIGNAL copied from Lancaster Record, the following, recommended by the latter as requisites for "Booming a Town":

1st. Men of "Push and energy," men who erect good buildings; organize stock companies; establish factories; secure railroads; work for public improvements; and use every means in their power to locate in their city men of this class." Closing by saying: "Make the town attractive to strangers."

We, and every good citizen of Mt. Vernon, indorse what our clever editors have given us thru their papers:

They, of course, meant that class of "strangers" that are welcomed in every progressive community, who add by their presence to the moral and religious growth.

Mt. Vernon has the distinction of having some men who are classed if not "classic," as "Boosters."

While we, as an individual, may not be in sympathy with everything that is boosted, we can point with pride to several things that Mt. Vernon's business men have been active and successful in pushing to a satisfactory issue. First in importance is the "Good Roads" movement.

They have been eminently successful as leaders in the location of Boone Way and Dixie-Boone Highway.

The people who boosted and brought to a successful termination, the bond issue in favor of High School and Good Roads are entitled to our gratitude and appreciation.

To the business men of Mt. Vernon we are indebted for the installation and excellent service rendered by our Light and Power plant.

It may be said that we have passed the uncertain and doubtful stage in the bond issue campaign,

not only that, but the higher courts have decided that a two-thirds majority is not necessary to decide a popular question that a majority are in favor of.

In other words the majority have a right to be favored rather than the minority. While we are commending ourselves and extending mutual congratulations for what has been accomplished, let us make a further survey of our social and civic environments.

With all of boosted improvements, may we quote from Holy Writ: "Yet lackest thou one thing. 'Our Savior said: 'Cleanliness is next to Godliness,' one of our lawyers quoted on a recent occasion: Now the application, and by the way the most important of all the measures we have mentioned:

The one thing needed so much is WATER WORKS—we repeat, WATER WORKS.

We shall never get safely and permanently seated on the "Water Wagon" till we have Water Works, furnishing a bountiful supply for drinking and bathing as well as cooking and flushing our gutters and side walks.

There is no need of reminding our people of what they already know of the abundant supply of pure water near by and the topographic advantages of erecting a water tower or reservoir, the latter preferable. Furthermore, we need not point to, nor elaborate on the epidemic of typhoid fever, that has been, and remains a menace to our town and surrounding community. In our haste and zeal for the pushing of commercial enterprises we have ignored, or at least neglected the most vital question to the progress of any community.

The sanitary condition of the home, the school, the streets and allies, barns and hog pens, chicken roosts and pig sties, are of far more importance than streets, side walks, lawns or back yards. The neglect of hygienic precaution in matters referred to involves the question of good health, yea, life itself. Sooner or later your life or mine or that of some loved one, may be the price paid for our procrastination. It is only a question of time when we'll have water works. The plan and rough estimate of cash is practically understood by some of our business men. It remains for some man in whom we have confidence as a conservative business man to take some other business man into his confidence and agree on a plan.

The time is ripe for this initiative, and eliminating partisanship, and sacrificing some of our prejudices, we can and must have water, fresh water, clean water, in abundance. We need to have a washing away of our political sins, and we venture the assertion that enough money has been spent to have put a water plant in Mt. Vernon, for that which does not remove political or any other kind of sin. On the contrary it makes the dye deeper and blacker, that send souls to perdition. Who will be the man, or body of men that will act on the suggestion—"Water, Water" we have plenty of it—but not fit to drink.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure by local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

The first stroke of the brush will prove the superior covering [hiding] power of Kurfees Pure Lead and Zinc Paint. You will immediately appreciate the difference in spreading a paint composed of:

80% Lead and 20% Zinc

and the paint you have heretofore been using.

In no other paint will you find 80% Lead; nor will you find a paint of such heavy body.

Ordinary paints do not cover like Kurfees paint, for the simple reason that they do not contain sufficient Lead to make them cover. You know a paint must contain Lead and lots of it, if you expect it to cover and wear well.

If you get Kurfees 80% Lead and 20% Zinc Paint, you don't need to buy as many gallons for the job as you would of ordinary paint, nor will you need to repaint the job so soon.

Kurfees Outside White is the whitest white; makes the whitest houses; and the colors are all good and permanent. Let us figure on your job.

GERMANY must immediately cease her present method of conducting her submarine campaign on pain of the severance of diplomatic relations between that country and the United States.

In unequivocal terms President Wilson in a note to Germany has told that country and at a joint session of Congress reiterated the statement that the only way that Germany and the United States can continue their diplomatic intercourse is for Germany to bring her underwater attacks within the laws of nations. Both passenger and freight-carrying vessels are embraced in the President's demand.

Appended to the note is a statement of facts concerning the disaster to the cross channel steamer Sussex, which the United States Government considered as proving absolutely that the ferryboat was torpedoed, despite Germany's contentions that none of its underwater craft was responsible for the explosion which killed a large number of persons and injured several Americans.

Wireless telegraph service between the Harlan county coal fields and Louisville is to be installed by one of the coal companies. It is probable that other places in the mountains will follow suit inasmuch as the old telegraph companies have become so independent as to cut out so many offices.

THE Lexington Leader has been publishing some interesting and valuable items of early historic facts pertaining to that city and Fayette county. A big portion of Maret's Boone historical sketches, Trails and Highways, etc., is after the same order, in paragraphical form.

W. M. BULLOCK ON MT. VERNON AND SOMERSET PIKE.

(Paid Advertisement.)

At a meeting of the Fiscal Court, in Mt. Vernon on April 15th, for the purpose of determining on or designating one of the two proposed routes or roads to the Pulaski line, there was a good many depreciative speeches made about the Hansford route and its vicinity. Some of those things I want to bring out and will ask and answer some questions and see if they can be denied or proven to be not a fact by people who are in a position to know. Mr. Scroggins brought into court a map, drawn by himself, of the two proposed routes, showing a network of roads, schools, churches, stores and post offices on the Level Green route, and he showed the Hansford route and vicinity a skeleton that hardly had a frame. From his showing on this map, it surely would not have stopped a hole in the ground. Now answer these questions differently will you. Mr. Scroggins, or any of your committee, or prove it.

Q 1. Your proposed route runs through how many voting precincts?

A. Namely, West Mt. Vernon and Brown.

Q 2. How many Magisterial districts?

A. One, composed of West Mt. Vernon, Browns and Broadhead voting precincts.

Q 3. Is there not another road routed through this Magisterial district that makes those two roads in a shape of a V, all in one precinct and touching on other precincts?

A. Yes.

Q 4. Hasn't this same Magisterial District another road going out the Richmond way that is a liner to this district?

A. Yes.

Q 5. Now, isn't it a fact that the Hansford route for the first

seven miles is a line between four voting precincts?

A. Yes. Namely, East and West Mt. Vernon, Browns and Walnut Grove.

Q 6. Also two Magisterial districts, composed of East Mt. Vernon and Walnut Grove, and West Mt. Vernon, Browns and Broadhead voting precincts?

A. Yes.

Q 7. Can those precincts be so fairly and equally represented in any other way?

A. No.

Q 8. Can the Southeastern part of the county be represented any other way?

A. No.

Q 9. Would it be represented at all by the Level Green route?

A. No.

Q 10. Would not the Broadhead route and the Level Green route put half of the routing in about one-sixteenth of the county?

A. Yes.

Q 11. Would not the Hansford route make an X through the county?

A. Yes.

Q 12. Wouldn't the last 3 1/2 miles of the Hansford route go through the Southern part of Browns precinct?

A. Yes.

Q 13. Can you deny and prove not to be a fact, any of the above answers?

A. No.

Now, as to the many things that you claim that we have not and the many things that you do, while we do nothing:

Q 14. Have you a telephone line over your road?

A. No.

Q 15. Haven't we a good telephone line with three wires over the Hansford route?

A. Yes.

Q 16. Was there 1000 bushels of corn or even 500 bushels of corn put on the market at Mt. Vernon, or any other point, from your road in 1914?

A. No.

Q 17. Was there on the Hansford route?

A. Yes.

Q 18. Was there 2000 bushels sold in one deal from your route in 1915?

A. No.

Q 19. Was there from the Hansford route?

A. Yes.

Q 20. Out of 135 cases of eggs shipped out of Mt. Vernon on Monday, March 10th, how many cases came over the Level Green route?

A. 10.

Q 21. How many over the Hansford route?

A. 73.

Q 22. Isn't it a conservative estimate that there is \$100 worth of general traffic comes into Mt. Vernon over the Hansford route to \$1 worth over the Level Green route?

A. Yes.

Q 23. Can you tell me whether there was ever a dozen car loads of stuff hauled over your road and shipped out of Mt. Vernon?

A. No.

Q 24. Would it be a conservative estimate to say that there is from 50 to 100 cars come in over the Hansford route each year?

A. Yes.

Q 25. Are there on the Level Green route, any orchards of 15 acres planted out for commercial purposes?

A. No.

Q 26. Is there on the Hansford route, and many smaller ones?

A. Yes.

Q 27. Are there any coal fields and timber to be reached by the Level Green route?

A. No.

Q 28. By the Hansford route?

A. Yes.

Now, as to the schools that it is represented you have and the ones we have not. We will name some of those districts that will be directly benefited by either road: Cummins, Norton, Patton Moore and Level Green. Then I will name the ones that will be benefited by the Hansford road: Namely, DaVault, Hopewell, Long Branch, Nicely, Blues Springs, Sinks, Shrewsbury, Buffalo, Gum Springs.

As to the mail routes and post offices that are spoken of: Have you more than one daily mail route on and intersecting your road? Answer. No. Have we? Answer. Yes.

Mr. Scroggins represented us as having no roads and no way to get

into a road it we had a pike. If we have no intersecting roads how does all this mass of people get out of the country that come into Mt. Vernon with all this marketable stuff? We are also asked how we made this trip without a ladder. For the benefit of the ones who do not know, will give the grade as the engineer gave it and laid it before the court when it met. "For the three miles, east to Mt. Vernon on the Dry Fork of Skeggs Creek route will give us a maximum grade of 5 per cent. From there on to the Pulaski county line the grade will not exceed at any place 3 per cent. and will be under 2 per cent. the greater part of the distance. A railroad could be easily located on this last 7 1/2 miles. On the old Somerset and Mt. Vernon road in at least three places you would have to create considerably and lose at least three-quarter of a mile in distance to establish a 7 per cent. grade." Give the ladder to who ever you think needs it most.

Now I kindly ask if such answers I have given and the statements I have made can be truthfully contradicted and proven, by the general public who knows, to be not the facts. If so, I expect to see it in the columns of the next issue of this paper. I do not mean to cast any reflection on the people along the Level Green route or their country. They have a good farming country; they are good people as anybody; I like them as well as anybody and I haven't a word to say against them. I am considering this from a strictly business standpoint, and beside, we were promised two pikes across the county and not just through the county. To Mr. John Scroggins belongs the credit for calling forth this ad, and if anybody asks you who had it put in the paper, tell them Wm. Bullock.

MY TOWN.

I believe that this town belongs to me—all of it. In the larger sense, that love is possession. I believe that I have a right to call it "my town."

I believe that a spirit has dwelt here whose name is HOME, and that even in this era of material things it walks the streets today hand in hand with Business, making a brotherhood of all the people.

I believe that not because it is a place of many people, but because its people are prosperous and content, it is good to be one of them, and to be able here and everywhere to call it "my town."

Mrs. T. J. Niceley, at their ele gant Richmond street home, en tertained the following on yester day: Mrs. S. D. Lewis and mother, Mrs. Weber, Mrs. J. W. Van Winkle, Mrs. Mary Williams, Mrs. W. M. Poynter, Mrs. Fanny Adams, Mrs. H. McFerron, Mrs. Ina Miller, Mrs. Carmical, Mrs. Cook and Miss Georgia Miller.

After being housed by sickness for fourteen weeks, our friend "Boone Way" was able to come up town Monday morning. He did some writing on his history of Daniel Boone, Trails and High ways, etc., during his enforced confinement, and will finish it up during the week and send it to publisher at an early date. Com petent critics pronounce it a splen did work, being "something differ ent," and a most entertaining and valuable reference book.

Wallace Laswell, County Game Warden, has fever.

Mrs. Casper Adams is visiting her parents, Mr. and Mrs. S. H. Martin.

Bradley Perciful will go to Avoca to work for the W. J. Sparks Co. Mr. Gentry will be located there for two years.

LOCAL

Tomorrow is Booster Day in Mt. Vernon.

There are other good cars but the Ford is best.

"Ashby" is the new Arrow Col lar for Easter at Fish's.

Dress up for Easter. Let Fish's show the complete outfit.

A person becomes "of age" on the first instant of the day before birthday anniversary.

When in town call around and see that automobile you are going to win at Mt. Vernon's Fair.

Saturday will bring one of the largest crowds to town that has been here in many months.

Phone your order for Easter Flowers to Fish's today and we will deliver Sunday morning.

The brick layers began Monday laying brick on J. M. Brown's new house on Richmond street.

Mrs. Della Baker bought W. I. Richard's residence on Main street where he now lives. Mr. Rich ards will build at once.

DENTAL WORK DONE

I will be in Brodhead again on April 17, 1916, for a few days only. M. K. PENNINGTON, Dentist.

Round trip tickets to Lexington for \$3.15 May 6th and May 10th, limited to three days from date of sale, on account of Spring Race Meeting Kentucky Association.

When you get the right voltage, you do not have so many burn outs in lamps. Buy them at R. H. Miller's drug store and you are assured of the right voltage.

Cashier W. L. Richards closed a deal with Proctor & McKenzie for a new residence on the lot on West Main Street, where his residence burned about two years ago.

The brick work on W. G. McBees new residence is completed and the carpenters are now at work on the wood work. This will be one of Mt. Vernon's pretti est residences.

If the Power Co. whistle hurts some people as badly as they pre tend it does, it is better that it no longer be used as a fire alarm. We do not want any one to pass into an everlasting stage of hys teria.

Three brick buildings are under construction here at this time. Two are modern dwellings and one business house. Will Krueger's dwelling will be completed within next two weeks; that of W. G. McBees about three weeks. Maurice Brown's two-story business house on Richmond street is progressing and will be up inside of next thirty days.

Walker Prewitt, who lives three and a half miles out on the Dixie Highway, had his house and most of the contents burned about noon Tuesday. Mrs. Prewitt was at home with two small children and used good judgment in putting them at a safe distance from the house and running back and get ting out a good many things. The fire started from a defective kitchen flue.

Children cause care, anxiety and trouble. Surely they do and a little trouble is good for most peo ple. It takes them out of them selves and removes the self-center. It was David Harum who re marked, "Flees are good for a dog because they keep him from broodin' on being a dog." The home that never has been entered with a whoop, a yell or a bawl is a sad place.

Miss Ina McCoy, one of Mt. Vernon's prettiest and most lova ble young ladies, was recently married to Mr. St. Clair, of Lex ington. They are now at home to their friends on Rand Avenue, Lexington. We do not know Mr. St. Clair but we do know he is a lucky man to have such an esti mable young lady for a helpmate.

Easter shirts, hats, ties, socks and everything for the young men and the man who wants to stay young —at Fish's.

Good prospects of a number of new buildings.

When you get the National Maz da, you get the best Electric lamp made. At R. H. Miller's drug store.

Dr. R. J. CASSIDY, Lexington, Ky. 4-21-16.

GOOD WATCH:—Just one year ago, while plowing his garden, Mr. H. C. Gentry lost his watch, which he was never able to find. Tuesday while plowing the same spot for his 1916 garden, he found the watch in excellent condition and ready to go to running as soon as wound.

The special term of the Rock castle Circuit Court began Mon day, which was called for one week for the trial of a number of equity cases. Next Monday the regular April term will begin and last only one week. On account of a conflict with the Clinton Court, Judge Bethurum called the special term of one week, in order to get in two weeks in Rockcastle at this time.

The Interior Journal, in its ac count of the horse shoe in Stan ford, has this to say of a Rockcas tle horse: "Barney, a handsome big bay German Coach horse, owned by J. A. Hasty, of Level Green, Rockcastle county. Mr. Hasty rode his animal and had it highly complimented." Read ad vertisement of this fine horse found elsewhere in this issue.

W. M. Bullock, the Hansford merchant, is delivering this week, 2000 bushels of corn sold last De cember to W. J. Sparks and John Fields. Mr. Bullock sold this at 60 cents at early delivery. Hold ing for the best market, Messrs Sparks and Fields have not felt justified in shipping until now. The corn will go to Stanford and other points. Mr. Bullock sold to W. J. Sparks Co. 1000 bushels last year at the same price.

The following letter from Judge Samuel M. Wilson, of Lexington, was received by our Boone Way man this week. "Noticed in the Lexington Leader, of Sunday, March 26th, that you will shortly publish a history of Daniel Boone, Trails and Highways, etc. If this be so, please put me down as an advanced subscriber for your work. I have long been inter ested in the Wilderness Road and its renowned pioneer builder, Dan iel Boone, and with my wife made a trip over this road in the months of August and September, 1902, which we both greatly enjoyed. Very truly yours, SAMUEL M. WILSON.

The following letter is self ex planatory:

"Elizabethtown, Ky., April 18, 1916. Mr. Fred Durham,

Dear Sir: Yours at hand, and am glad that some one is want ing something. With pleasure I have entered as a gratis shipment to you for Saturday, 22, five gal lons sherbet, and five gallons of cream. All we ask you to do is to advertise this, and return to us promptly the empties. Wishing you success with your supper, and lots of victories in your ball games, which I know you will have. How well would I love to attend these games and watch you coach.

We are, most respectfully, ELIZABETHTOWN ICE & ICE CREAM CO. By Clara Brown." The Cream will arrive on 23 to morrow and will be sold out in the court house yard tomorrow af ternoon. The proceeds go for the benefit of the ball team which will be used to buy uniforms. Another important fact is to remember that Brown Bros. donated the cream and when you want ice cream don't forget Brown Bros'. Ice Cream made at Elizabethtown Ky. by the Elizabethtown Ice & Ice Cream Co.

The Loyal Sons base ball team went to Stanford Wednesday and met with an overwhelming defeat at the hands of the Stanford High School team. It was a game of errors from start to finish with both teams, but we regret to say, that our boys have a few more to their credit than the Stanford boys. George Payne, who was on the mound, could easily have had the Lincolns at his mercy at any stage of the game, but our catcher, Dick Cox, with a sprain ed ankle and but little practice, was not in condition to take care of his speedy balls, although Dick put up a game fight to the finish. "Steamboat" Bill Thompson at second and Dwight Bowman at third came through without an er ror. The score stood 15 to 6 in favor of Stanford. On last Satur day the Stanford boys came to Mt. Vernon and defeated the Loy al Sons by the close score of 10 to 9. Instead of the Mt. Vernon game being a pitchers' battle, it was said by some to have been an umpires' battle. The box score of the Mt. Vernon game would have appeared in this issue, but the score card was lost, and of course there was no way of dupli cating. Stanford has a good work ing team, being especially strong in the out field. With Mt. Vernon practice and lots of it is what is needed before scheduling any more games with teams that have had anything like the practice that the Stanford boys have had. The feature of the Stanford game was Payne stealing home, on Stan ford's crack catcher and pitcher.

SAFE MEDICINE FOR CHILD REN

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleas ant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effectual in reliev ing coughs, colds and croup. Ob tainable everywhere.

See Fish's to day about that new Easter outfit.

A Good Meal Is Not Poetic But Sound Better.

To The Average Man The Maternal Comforts Count Most

For the average person un blessed with riches, it is the mater ial comforts of life that count. That "we want but little here be low" is a truism, but to be with out that little is keenest hardship. If a good meal isn't poetical, but the honest declaration, "I can eat a hearty meal without discom fort," has a better sound to the average man than the best line ever penned by poet.

It is after long loss that the ma terial things, when won back, seem so much better.

Of all the ailments that afflict humanity, chronic dyspepsia is probably the most common. Its causes and characterizations are many. Skilled specialists have been unable to cope with this al most universal malady, but Mother Nature in combination with skill and chemistry, has com pounded in her exhaustible labo ratory a marvelous remedy for this trouble.

The symptoms of this common disease, which is only a fore-run ner of more complicated maladies, are many. Belching after meals, frequent nausea, pains in the re gion of the stomach, and a tired feeling, are only a few of the indi cations. Dyspeptics become list less, then morbid, are melancholy over trivial things, have whimsical ideas, besides physical sufferings, and with appetite gone, sleep fit ful, dizzy spells and frequent nau sea, life hardly seems worth living. Tanlac was designed to check this distressing condition, and to restore a healthy, normal appetite bring good, restful sleep—in short to restore the stomach to the hab it of doing a full day's work, and doing it well.

Tanlac, the ideal reconstructive tonic, is being especially introduced in Mt. Vernon, at Drug Store of Chas. C. Davis, also at Central Drug Co., Livingston, and John Robins' Drug Store, Brodhead, W. M. Owens' store, Burr, Lyne Bros., Crab Orchard, S. E. Welch Berea.

WHY CONSTIPATION IN JURES

The bowels are the natural sewer age system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets. Obtainable everywhere.

INSOMNIA

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets im mediately after supper, and see if you do not rest much better. Ob tainable everywhere.
